"When our Clinic needed to hire a new Family Practice MD, it was my task to find doctors, and fast. I had advertised in few places with no success, and I began to think that it would be very hard to fill the position. I didn't want the Clinic to have to put down thousands of dollars for a recruiting firm so I put an ad in *Florida Medical Business*. I started getting a couple calls a day from doctors all over Florida. This week I have three doctors coming in to get interviewed and all of them came off of our ad in *Florida Medical Business*! Thanks."

"Your paper has produced 46 responses to my recruitment ad. *Florida Medical Business* has once again helped me considerably in a rush project to fill a key position for an important client. The advantage you provide is the circulation to the Florida physician community who already have a Florida license - other resources bring candidates that don't meet our time table due to the length of time required to obtain a Florida Medical License. Thanks for your help."

"I want to express my appreciation for all your help in placing our ad. At this time, there is someone who appears to be very interested, so hopefully I can retire soon! Your advertising appears to have been successful and your help is greatly appreciated."

"I wanted to take a few minutes to thank you for the help you provided to me with my classified ad. I was running 3 ads for 2 months each in Broward (*The Record*), Miami (*Miami Med*) and Palm Beach (*On Call*) and the response so far had been less than good. Your publication is a quality paper. The response that I have had over the past week has been better than all 3 other publications combined. Thanks Again."
